General conditions of Sale

Price list

The price list indicates the recommended retail prices, and prices are per unit in Euro or according to own price list, excluding VAT and ex-warehouse. The prices and validity of the price list are calculated on the basis of warehouse stocks and scheduled arrivals. Industrial Wear s.r.l. reserves the right to vary at any time and at its discretion the price list. For the determination of the applicable price, we will take into account only the price list in effect at the date of delivery of the items.

Packaging

The quantity of each item contained in the box (pack.) is indicated, as well as the minimum number of items that may be purchased per size (size), which may be either one or more than one.

Specification and tolerances

Changes in the color tone of the production batches of the same product are due to both natural causes and dyeing techniques and therefore, under no circumstances, can be considered defects and/or flaws. The colors shown on the catalogue and on the web are indicative, so they can not reproduce the actual color tone of the material. Cotton garments tend to fade when exposed to sunlight or light. This phenomenon will be accentuated when the clothing is worn by persons engaged in strenuous activity who may perspire profusely. Cotton garments, washed according to the instructions on the label, will shrink by roughly 5% and the colour will bleed slightly. Any variations greater than those specified are always the result of incorrect use and/or washing of the product. The weights listed in the catalogue have a tolerance less than 5%. The sizes comply with European standards. However, the production process has an extra margin of tolerance with respect to the size of +/-3%. The customer has to check the product before using it. The continuous research, development and improvement of the products may determine changes to the technical specifications from one season to another. It is the responsibility of the customer to acquire information regarding any modifications of products before purchasing and/or presenting them.
